Founded in 1975, Great River Organic Milling is located near the upper Mississippi River in western Wisconsin. The natural beauty of the surrounding area is a constant reminder of the importance of our responsibility to be good land stewards and how fortunate we are to be able to offer products from this area. All of our products are carefully selected to ensure that the quality exceeds your expectations. We also use natural granite stones for milling. We believe the stone enhances the quality, taste and nutritional integrity of whole grain flour.

Family values are also at the core of Great River Organic Milling’s principles. We take pride in what we do and that we can offer something for everyone. From conventional, to gluten free to organic; we have it all!

STONE MILLING DIFFERENCE

The stone ground difference starts with sourcing quality organic grains.

Organic farming practices are the avoidance of chemicals and pesticides to ensure the end result is grain in its most natural form. The organic grains we source have not been genetically modified or altered in any way. Once the grains arrive and the milling begins the coolness of the stones grinds the grain into flour and retains nutrients in the flour.

The stone is dressed by the miller on a regular basis to ensure consistency and quality in our stone ground flour offerings. See the images below of the stone being dressed or resurfaced by the miller.

- NO BROMATION - NO BLEACHING = Just great flour so you can bake great!

Great River is ever growing in our offering of the ancient grains of the world. From the oldest domesticated wheat, Einkorn dating back over 10'000 years, to Teff which dates back further and originated in highlands of Ethiopia. These ancient grains contain more of the nutrients that mother nature intended for us. While we offer the whole grain options we also offer ancient grain flours where the stone-milling practices maintain nutrients and provide variety.

Founded in 1975, Great River Organic Milling began operations as a small stone milling company deep in the valley of western Wisconsin. Initially, production consisted of small deliveries of organic grains stone ground into flour for local bakeries. Fast forward 40 years later, USDA standards are in place, and you will find that Great River Organic Milling still operates out of the same milling facility. The scale of operations has changed dramatically! We are proud to count some of our nations largest manufacturer’s as our customers along with continuing to serve the same great local bakeries. Whether the need is 500 pounds of stone ground flour packed in 2 pound bags for retail or 2,000 pound super sacks, we are here to help meet your custom milling needs.
FAQ

Where can I find your products for purchase?
- Online the largest selection of products can be found on Amazon.com. If you shop at Costco you can find our 10lb - 100% Organic All Purpose White Flour within warehouses of the Midwest region. Great River Organic Milling also partners with a distributors like United Natural Foods Inc. to bring a variety of products to health food stores.

Do you use bleach or bromate any of your flours?
- No. Our goal is to maintain the integrity of the quality organic whole grains that we source.

Where does Great River Organic Milling source their grains from?
- About 95% of our organic grains are sourced locally within the Midwest region, with some of our wheat sourced from Canada.

When it comes to nut allergens what can you tell me about Great River Milling’s offerings?
- Our primary milling facility remains a nut and soy free facility. Please see the packaging and or ask our team based on the specific product you purchased.

What do you recommend for storage of grains and flours?
- We place a one year shelf life on our organic stone ground flours and two years on our organic whole grains, based on the expectation that the flours and grains are stored in a cool dry environment free from possible infestation. To further extend the shelf life we would recommend storage in a air tight sealed container that is stored in the refrigerator or freezer.

testimonials

“I just wanted to let you know that I am thrilled with the bread I have been making with your 100% Organic Bread Flour. It has been giving me the kind of bread I eat when I am in Germany, moist and healthy seeming. So Thanks, Please stay in business.”
Alex Von H., from Nashville, TN

“I made some rustic sourdough bread with your 7 grain bread flour blend and it was great. Thank you for being such a fantastic Wisconsin business.”
Lynn K., from Winneconne, WI

“I ordered your Seven Grain Bread Flour from Amazon.com. I use it for a loaf of sandwich bread every week. I would love to share my recipe for “Nannie’s Bread” (that’s me). I use my Panasonic bread machine. I bake this on the Whole Wheat setting, but it will work fine for a Basic setting also.

**Great River Organic Milling website for suggested recipe.
Sharon O., from Hayesville, NC

“I just wanted to write and let you know how much I enjoy your flours. I bake bread for small veggie co-op and have used your whole wheat, rye, oatmeal blend, and multi-grain blend. I always get rave reviews. I also appreciate the fact that I can get such a great quality product at such an affordable price. I can’t wait until your rice, corn, millet and buckwheat are processed in a gluten free environment so I can order those products as well. ”
Candy, from South Carolina
